TARGET GROUP

The EStALI conferences bring together experts in the area of European State Aid law from various European countries, international organisations and institutions. As such it is targeted at:

- EC competition lawyers working at a competition authority, in-house, or in private practice
- private legal practitioners
- economists
- academics
- industry representatives with an interest in the law and economics of European State aid

BENEFITS OF ATTENDING

Since its launch in 2003 the bi-annual conferences of the European State Aid Law Institute (EStALI) have grown to be the leading events in this particular field. As it has been the case in previous years they provide an excellent framework for leading experts from the European institutions, private legal practitioners, economists and academics to benefit from exchanging their views on the rules that will guide European State aid control for the coming years.

The high quality of the presentations as well as the analyses provided by our speakers guarantee a professional update on the most important current issues.
